ABOUT TICHENOR CLINIC FOR CHILDREN

For almost 100 years, Tichenor Clinic has provided access to therapy and parent support services to children with disabilities and their families regardless of their ability to pay.

We serve over 700 children (from birth to 18 years old) and have over 12,000 patient visits annually in our programs: early intervention (small group parent-child program): 1:1 physical therapy, occupational therapy, speech-language therapy, swim lessons; and orthopedic consultation. Our parent support program educates parents on how to navigate the complex health and educational systems and become their child's best advocate.
